► 3 in 1 SUPERMAT

Combining the turf, loop and moisture mat into a Supermat allows for a thorough cleaning of foot traffic when entering the interiors of any building especially during the rainy season. Turf mat agitates all debris on the sole while the loop mat scrapes and collects it. The moisture mat absorbs the remaining moisture to ensure clean entry into buildings, offices and homes. These mats can be custom-made to fit most entrances and doorways to provide complete protection and minimize cleaning cycles inside the area.
