CABLE TRAYS AND LADDERS

We are able to accommodate any project specification for Cable Trays and Ladders, and more importantly - we are able to do so in a cost-efficient manner. We have deep expertise with a variety of materials, thicknesses and finishes:

TYPES OF MATERIALS

- 1. Black Iron (B.I.) Hot Rolled Sheets
- 2. Galvanized Iron (G.I.) Sheets
- 3. Aluminum Sheets
- 4. Stainless Steel Sheets (Ordinary 2B or Mirror Finish)
 - Type 202
 - Type 304

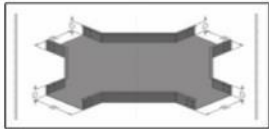

METAL THICKNESS

- 1. Ga. #18 (1.0 - 1.2mm)
- 2. Ga. #16 (1.3 - 1.5mm)
- 3. Ga. #14 (1.6 - 2.0mm)
- 4. Ga. #12 (2.1 - 2.5mm)
- 5. Ga. #11 (2.6 - 3.0mm)
- 6. Ga. #10 (3.1 - 3.2mm)

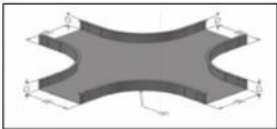

TYPES OF FINISHES

- 1. Powder Coated (Indoor and Outdoor)
- 2. Pre-galvanized ASTM-525 G60
- 3. Hot Dipped Galvanized (HDGAF) ASTM A-123
- 4. Epoxy Paint

WHO WE ARE

Metallfit Inc. offers customers of all sizes complete custom metal fabrication services, including custom engineering and product development capabilities. Product managers and buyers alike are able to source multiple metal components from one supplier – making their work more efficient.

Metallfit was established in 2010 and initially specialized in supplying the metal fabrication needs of the Telecom industry. Today, we serve the needs of our clients in the IT, Electrical, Construction and Furniture industries, and are always open to collaborate on new projects.

We pride ourselves with offering the highest standard of technical expertise, service, safety and transparency to our valued partners at a competitive price point. More than just being a supplier of metal fabrication, we aim to be a go-to solutions partner.

Compliant with:

SERVICES

- Cutting
- Turret punching
- Bending & forming
- Water jet precision cutting
- Hardware insertion
- Welding
- Machining
- Powder coating
- Product assembly
