ENGINEERING CAPABILITIES

GEOTECHNICAL ENGINEERING, SOIL MECHANICS AND ENVIRONMENT RESEARCH

High Rise Structures and Communication Towers
Roads, Bridges and Special Structures like Flyovers and Tunnels
Site Development, Ports and Dams

Sanitary Landfills and Sewage Treatment Plants

Piezometers and Monitoring Wells

EVALUATION AND ANALYSIS OF FOUNDATION SYSTEMS

Calculation of Bearing Capacity
Liquefaction Analysis
Field Density Testing

Soil Swelling Analysis

Slope Stability Analysis

DESIGN AND EVALUATION

Deep Foundation

Foundations of Coastal and Offshore Structures
Earth Embankments
Sheet Pile Walls

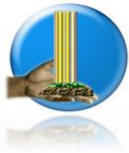

Earth Retaining Structures

Piezometers

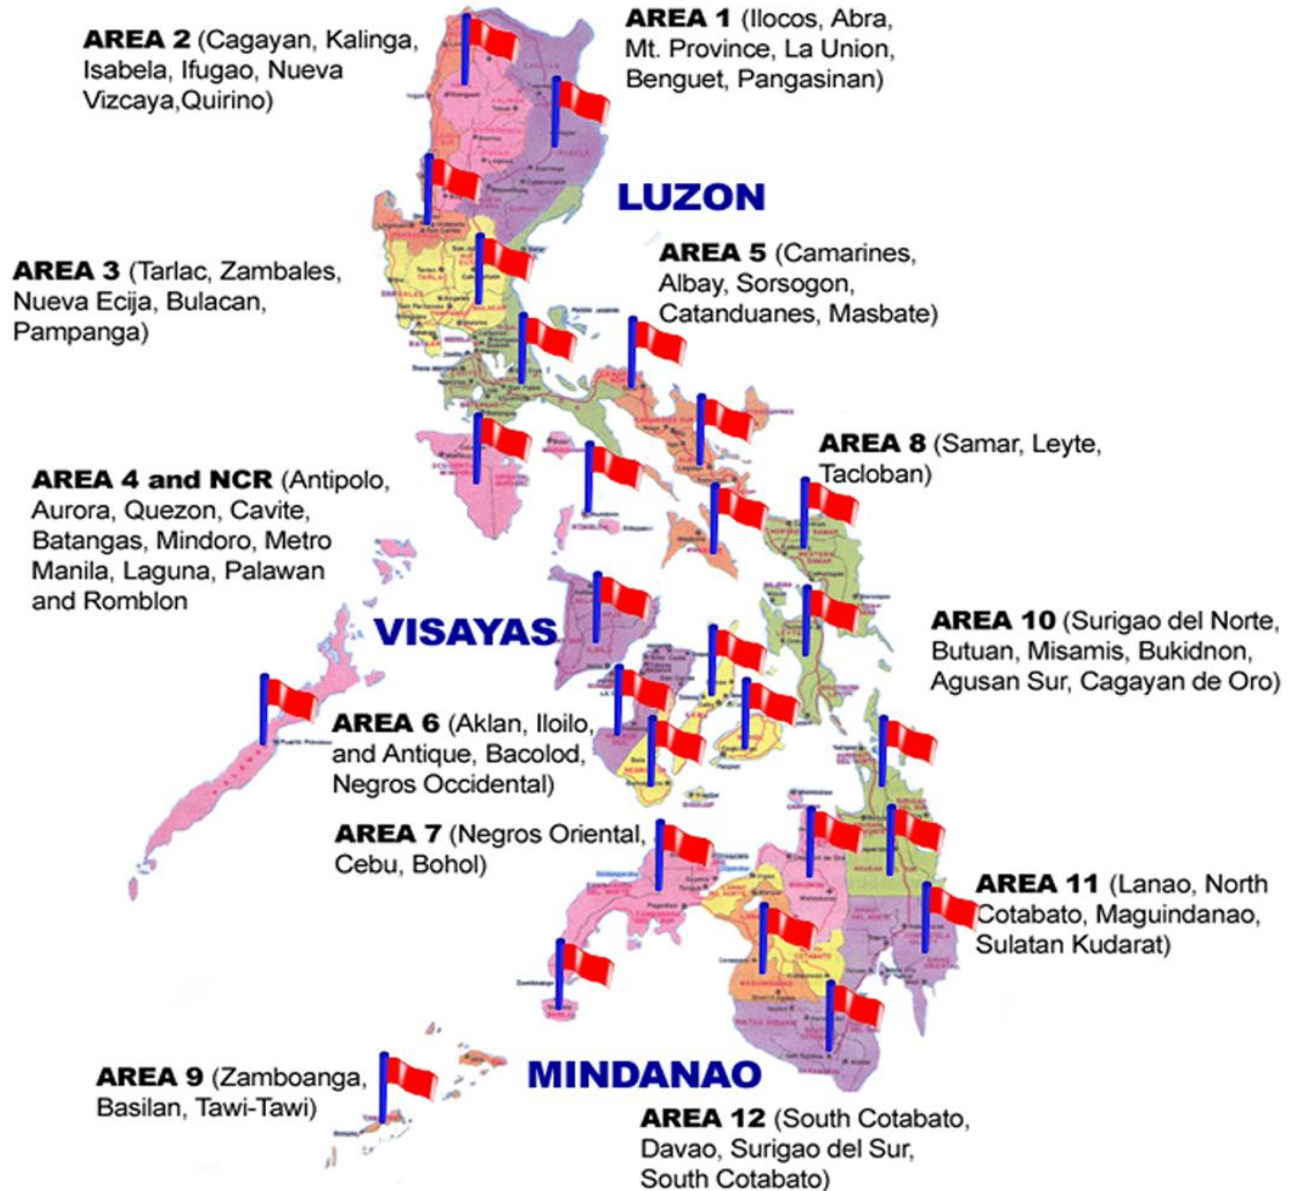

DIAMOND AND ROTARY DRILLING WORKS

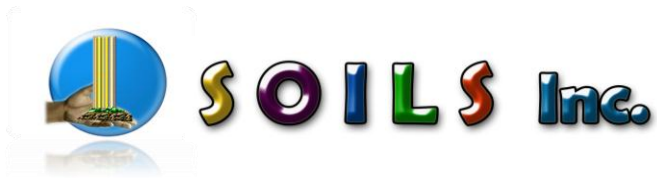

GEODETIC TOPOGRAPHIC AND RELOCATION SURVEYS

CIVIL ENGINEERING DESIGN AND CONSTRUCTION MANAGEMENT AND SUPERVISION

AREAS OF WORK

THE COMPANY

Established only in April 1994,
SOILS is among fast growing companies
in the field of geotechnical engineering and soil mechanics.
With people and equipment which satisfy even the toughest needs of clients,
SOILS has risen to the top as far Geotechnical Engineering,
Environment Research and Soil Mechanics, and
Foundation Systems Analysis is concerned.

We take pride in our work
and the positive feedback from our clients
enable us to continue serving.

OUR PEOPLE

BENNY DELA CRUZ, CPA

General Manager, is responsible for putting together the talents and experts behind SOILS to form a highly productive and motivated team. He provides the necessary leadership that inspires personnel to perform and deliver beyond normally acceptable quality output.

ENGR. ROY ANTHONY LUNA, MSCE

Consultant, MS in Civil Engineering completed at the University of the Philippines, has had extensive professional practice in geotechnical engineering evaluation of various sites nationwide. While working with AMH Philippines and Dr. Acacio, Engr. Luna is also currently teaching at the UP-Diliman and is eyeing a second masteral or doctoral degree (in geology or in geotechnics)

DR. GLEN LORENZO, Doctor and Master of Engineering from the AIT in Bangkok as a scholar of the Japanese Government and is Magna Cum Laude in Civil Engineering at the Mindanao State University, is now currently Dean of Engineering of the MSU. He gained many years of consultancy experiences in Malaysia, South Korea, Thailand and the Philippines. Through his extensive consulting practice and his deep interest in the science and art of foundation engineering, he has helped bring SOILS to its present status as one of the country's foremost soil engineering firms.

ENGR. ALLEN G. ROS, MSCE

Geotechnical Engineering Specialist, has been responsible for the evaluation of numerous prospective sites for almost all kinds of structures for SOILS, INC. Engr. Ros is a product of Mapua and the University of the Philippines.

OUR EQUIPMENT

SOILS is proud of its line of equipment for most types of soils and related investigations. SOILS utilizes mostly Koken, Toho and other Japanese brands. And for its laboratory, it utilizes mostly European such as Memmert, Ohaus and Proceq.

Field Equipment

1 Unit Osaka Belle Rotary Hydraulic Rig	100 meters capable
1 Unit Tone Rotary Hydraulic Rig	300 meters capable
1 Unit KYS (NQ) 24 HP Rotary Hydraulic Rig	300 meters capable
1 Unit Koken (14 HP) Rotary Hydraulic Rig	150 meters capable
1 Unit Koken (Ace) Rotary Hydraulic Rig	150 meters capable
1 Unit Koken Rotary Hydraulic Rig	250 meters capable
2 Units Toho Rotary Hydraulic Rig	175 meters capable
1 Unit Triple tube Core Barrel	For full core recoveries
4 Units Double tube Core Barrels	
2 Units Briggs and Stratton Cathead	For Standard Penetration Tests
1 Unit Lester Water Pump	Triplex
1 Unit Myers Water Pump	Triplex
2 Units Koken Water Pump	Duplex
1 Unit Koken Water Pump	Triplex
4 Units Honda Water Pumps	Centrifugal
2 Isuzu Elf 4 Tonner trucks	1998, 2000, 2007 acquired
1 Personnel Carrier Jeep	
1 Lot BW, NW, BQ, NQ	Casings, Rods and Bits

Laboratory and In-Situ Testing Equipment

Other Equipment

■ One Set 2004 ASTM in CDs
■ ATM, Gilson and Controls Sieves (various sizes)
■ Ohaus Balances (Heavy Duty, Triple Beam, Cent O'Gram)
■ Sand Cone Sets for Field Density Testing
■ Permeability Tester
■ Soil Lathe Machine
■ Proceq Rebound Hammer
■ Laboratory Compaction Test Set
■ Specific Gravity Test Set
■ One Laboratory Hot Plate
■ 1 Unit Murai Compression Testing Machine
■ 2 Units Memmert ovens with Thermostat Control (Forced Draft Type – ASTM Compliant)
■ One Ricoh FT-4015 Photo copying machine
■ One Fujitsu Lifebook Laptop
■ One Unit Pentium 4 Centrino Laptop Notebook with Internet Connection
■ Three Units Pentium 4
■ Kodak V530 Digital Camera (1 unit)
■ Kodak LS 333 Digital Camera (2 units)
■ Kodak Digital Cameras (one C310 and one C330)
■ 7 Assorted Cameras and 2 Cannon Professional Cameras
■ Three Units HP Deskjet Color Printers
■ One set Laboratory and Office Furniture and Equipment (incl. Fax, Electric Typewriter, etc.)
■ One Electronic ASTM Manual and library for soil testing
■ Reference Texts on Soil tests

EXCLUSIVE CLIENT FEEDBACK

"...In all of these projects (geotechnical investigation of future sites and structural engineering evaluation of our facilities suspected to have some structural problems), SOILS has proven its capability and capacity to deliver quality and satisfactory output. Through this certification, we endorse SOILS for projects of this nature..."

-- ENGR. ERIC DEL ROSARIO (Construction And Architectural Manager For Asia),
The Church Of Jesus Christ Of Latter-Day Saints

"We are pleased to inform you that we are now in full swing with the construction of the buildings for which you undertook the geotechnical investigation phase. We in MEGAWORLD are satisfied with your output and we look forward to doing business with you in the future. Again, rest assured that whenever any opportunity presents itself, we will endorse your company."

-- ARCH. DINA SY, AVP-Contracts

"Doing business with you had always been a fruitful relationship. This is evidenced by our requesting your services everytime we needed technical experts"

KA EDEL ENRIQUEZ,

Consultant for the Engineering Department, Iglesia Ni Cristo

"It has been a pleasure doing business with you and it was reassuring to realize that you are one of the more dependable geotechnical companies in the Philippines...Your performance...has placed the name of your company on top of our list of the more reliable soil engineering companies in the Philippines ... you shall enjoy priority rating from us..."

LI CHUNHUA,

Project Manager for NPC (Schedule III) 500 KVA. Cabanatuan to Bulacan Project,
